

RETRACTION

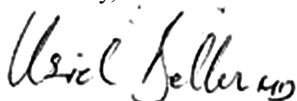

The Editor, the *International Journal of Gynecological Cancer*, is retracting the following article:

Takai N, Ueda T, Ishii T, et al. Effects of bufalin on the proliferation of human choriocarcinoma cells. *Int J Gynecol Cancer*. 2011;21:1105–1109.

The authors have identified errors affecting several figure panels in which original data were processed inappropriately by the corresponding author (N.T.), such that the figure panels do not accurately report the original data. The other authors were not involved in making these figures. The authors believe that the most responsible course of action is to retract the above article. Dr. Takai sincerely apologizes to the coauthors and the scientific community for any inconvenience that this might cause.

The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as RETRACTED.

Sincerely,

Uziel Beller, MD

Editor-in-Chief

International Journal of Gynecological Cancer
